Water Harvesting Lab - International Seminar

Traditional and Innovative Water Harvesting techniques for Landscape Change

**Aula Magna, Scuola di Agraria, Piazzale delle Cascine
10 dicembre 2018 – 15:00**

[Dr. Frank van Steenbergen](#)

[MetaMeta Research](#), the Netherlands

Director

Dr. van Steenbergen has worked over the past twenty years in water resource management – with considerable experience in irrigation, catchment and landscape management, groundwater management and development, agriculture, climate adaptation and mitigation, transboundary water management, flood-based irrigation and disaster risk reduction, urban water management, water harvesting, drinking water, sanitation and wetlands.

The seminar is organised in the framework of the internalization program of University of Florence, and within the GSRAFA PhD Course. BSc, MSc and PhD students attending the seminar will be granted with a **certificate of attendance**.
